

Carotenoids and vitamins

Through our Swiss based partner Divi's Laboratories Europe AG, Innotaste is supplying a wide variety of high quality Carotenoids and Vitamins, both synthetic and natural to the food, beverage, and pharmaceutical industry.

The product portfolio consists of products in liquid and solid forms. Divi's uses spray-drying and microencapsulation technologies for their different solid forms, high-pressure homogenization for their stable emulsions as well as a unique technology for suspensions. The portfolio contains gelatin as well as vegetarian micro-encapsulated product forms to answer the individual needs of our mutual customers. The product range is GMO free. The products that require Kosher or Halal certification, or both, are certified by globally accepted certification agencies. The range is fully compliant with the current regulatory requirements of the EU and the USA regarding their use in food, dietary supplements, animal feed and cosmetics. They are in line with the relevant guidelines and standards of Codex Alimentarius.

Please contact Innotaste for further information or any inquiries.
